

Rockwell Parts

Rockwell Parts - AxleTech International is a premier dealer in the globe of specialty vehicle drive-train systems and parts together with off highway vehicles. The company prides itself on being its clients' chosen supplier. AxleTech strives to meet and exceed their customers' expectations for delivery, quality, service and technology. They believe in working within an atmosphere which encourages the highest integrity with empowered collaboration, along with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and providing a safe environment for their employees to work in. Also, they have applied a lot of programs in the company to be able to help articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whichever comments or questions, as they are happy to promote and share this policy with a greater knowledge of their efforts. They are very committed to improving and preserving the natural world. AxleTech has an EHS program that not only protects the natural environment but which also actively protects their staff and neighbors as well.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles used for both commercial and military applications. These applications vary from airport ground support to construction equipment. AxleTech particularly designs axles to meet particular application demands. They have over 1000 different axle specs in their present offering. With more than one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The business is well known in many commercial and military applications. They offer complete axle assemblies utilized for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have further details that can be found in the "ISAS" product collection.
