

Meritor Part

Meritor Parts - The Meritor Company is a leading global supplier founded upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems with a range of modules and components to the original equipment manufacturers and aftermarket equipment in the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage in the international operations. The company values all their customers and wishes to guarantee their success while anticipating their various requirements. Meritor begins with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

By only employing future focused people, Meritor strongly believes these top-caliber people would be able to rapidly adapt to changing environments and demonstrate the performance and commitment considered necessary to reach results in the competitive materials handling business. The business empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides all their staff different chances for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering that include axles, drivelines, suspension and braking systems meant for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the requirements of all their worldwide engineering personnel.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located around the globe in 19 nations and in 5 different continents.

They have their supplier network which is particularly located to support the growth of the business. Each and every regional team has globally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who make use of Six Sigma tools to business processes and apply lean techniques.
